F S A Finnish Spring Association

Spring Business

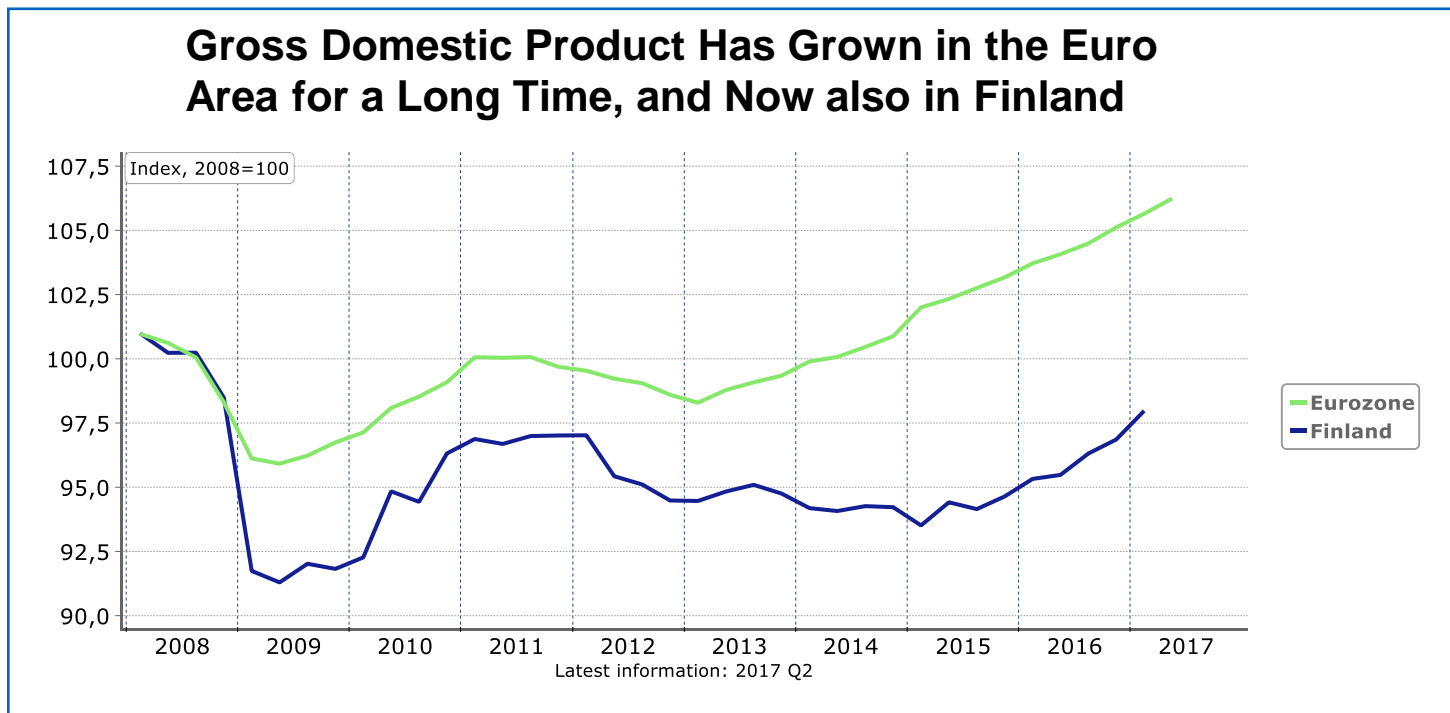

- The spring business follows the general economic situation and has been recovering after 8 years low
- The volumes are still under the level of 2008 but the general attitude for the future is positive
- The expectation for the next 3 months is very positive

F S A Finnish Spring Association

National Economic Situation

- The Finnish economy is returning to a growth track
- GDP grew by three per cent from the previous year in January-June

F S A Finnish Spring Association

National Economic Situation

- The growth potential of the Finnish economy is limited by two factors:
 - reduced production capacity
 - the diminishing working-age population
 - rapid growth in labour cost
